Understanding the Diverse Needs of Children whose Parents

In this review, we consider the potential service needs of children of substance abusing parents based on what we know about the risk outcomes faced by these children and the parenting deficits often present in these families. Importantly, our review does not address the etiological role of parental substance abuse in children's negative outcomes but instead we discuss the complex inter

Parental Substance Use and the Child Welfare System

Children The way parents with substance use disorders behave and interact with their children can have a multifaceted impact on the children. The effects can be both indirect (e.g., through a chaotic living environment) and direct (e.g., physical or sexual abuse). Parental substance use can affect parenting, prenatal development, and early childhood and adolescent development. It is important
