The Master and His Emissary Wikipedia

The Master and His Emissary received mostly favourable reviews upon its publication. Critics praised the book as being a landmark publication that could alter readers' perspective of how they viewed the world; A. C. Grayling, however, commented about the book that "the findings of brain science are nowhere near fine-grained enough yet to support the large psychological and cultural conclusions Iain McGilchrist draws".

Iain McGilchrist Speaker TED

His recent book The Master and His Emissary explores the nature of the brain's two hemispheres (the right is the "master," in McGilchrist's terms). How have our two hemispheres evolved to relate -- and how did their relationship create our consciousness, our culture, and our ability to understand our own brains?
